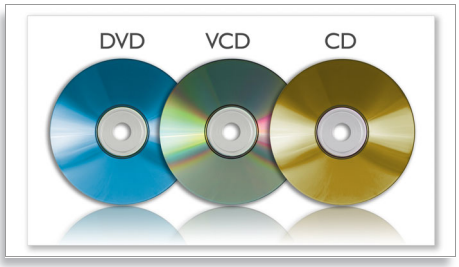
- Packaging dimensions (W x H x D): 360 x 295 x 72 mm
- Product dimensions (W x H x D): 199 x 38 x 153 mm
- Product weight: 1 kg
- Packaging type: D-box

Highlights

DVD, DVD+/-RW, (S)VCD, CD



The Philips Portable DVD player is compatible with most DVD and CD discs available in the market. DVD, DVD+/-R, DVD+/-RW, (S)VCD and CD – all of them can play on the DVD player. DVD+/-R is a shorthand term for a DVD drive that can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types.

DivX Certified
With DivX® support, you are able to enjoy DivX encoded videos and movies from the Internet, including purchased Hollywood films. The DivX media format is an MPEG-4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW and DVD recordable discs, USB storage and other memory cards for playback on your DivX Certified® Philips device.

Power Resume
The DVD-Video player remembers where you finished viewing a DVD and continues playing from the exact scene where you stopped watching, even after a power failure. If you did not take the disc out of the player, simply press play and it will resume play where you stopped the movie. If you did take the disc out of the player, just reload the disc and press "play" followed by "resume" on the remote control. The Philips DVD-Video player makes life easy!
